### Governor Whitmer's Executive Orders Allow MI Libraries to begin providing services following specified workplace safety provisions.

SDL is now able to initiate our phased reopening plan. SDL's first priority is employee safety. **Library services cannot be offered if library staff are sick and cannot report to work. The safety of our patrons is equally important. Every effort will be made to mitigate contamination between staff, staff to patron, patron to staff and patron to patron.** Please, be patient. We all want to return to normal as soon as possible.

SDL is planning a controlled, phased opening and will move to ease restrictions as indicated by staffing levels, the availability of protective and cleaning supplies, our capacity to manage each phase safely and successfully, and any local, state and federal restrictions. Notification of any service changes will be found on SDL's website. If you have any questions or concerns, please email [sanilacdistrictlibrary@yahoo.com](mailto:sanilacdistrictlibrary@yahoo.com).

Phase 0 was full closure of the facility to both staff and the public during the Stay-At-Home Orders. Phase 1 began on June 8. Library staff were allowed to return to work and began preparing to offer services again. Continued on page 2

## **SDL is now in Phase 2 of our Phased Reopening Plan.**

**Curb Service will continue until July 21 when the Library Board will evaluate the situation and state requirements before moving on to Phase 3 or 4.**

### **Current Status:**

- Access digital services: Overdrive (audio & eBooks) and RBDigital (eMagazines)
- Access links to many other digital services from SDL's website.
- **MelCat services are still suspended.** All requests made prior to the mandatory closing were cancelled by MelCat. No new requests are being taken. MelCat is just starting to retrieve items that were stuck in transit at libraries and delivery hubs during the closure. This is a state-wide endeavor and may take some time as over 400 libraries are reopening at different rates. Libraries in regions where the virus was prevalent may delay their opening.
- **Book order deliveries** were suspended by Baker & Taylor. All new titles released after March 16 have not been shipped.
- **DVD new releases** were also suspended and have not been shipped yet.
- **Book donations are NOT being accepted at this time.**

### **Library staff are working on:**

- Developing and providing Curb Service.
- Checking in items that were returned during the closure. All items are isolated for 72 hours, and cleaned before allowed to recirculate.
- Going forward: all returned items are isolated for 72 hours and cleaned with a Clorox wipe before being re-shelved or allowed to circulate again.
- Finishing projects that were not completed at the time of the closure.
- Processing books that were delivered the week of the closure.
- Ordering and organizing the required cleaning products and personal protection equipment. Many of these items are in high demand and are either not available or are on backorder. These items must be acquired before opening the facility to the public.
- Preparing the facility following CDC protocols and state requirements, which must be accomplished before opening to the public.

### **What you can do now:**

- Return library items that were checked out to you prior to the closing to the drop box.  
**No overdue fines will be charged for any items in circulation during the mandatory closing.**

## **Health and Safety Precautions**

SDL is following recommendations made by the CDC for cleaning, social distancing and other precautions to make the facility and it's collection of materials as safe as possible. However, as a public space, SDL is not a sterile environment and cannot guarantee germ-free physical materials.

### **SDL encourages patrons to stay home if:**

- You are ill
- You have been exposed to anyone who is sick
- You have an underlying health condition that weakens your immune system.

Notice of any service changes will be posted on SDL's website.

We are happy to be back in our building and look forward to the day when services return to normal. Until then, stay safe and healthy!
