NEW: OverDrive Partner Library Systems

SDL patrons may borrow digital items from these partner library systems:

- Great Lakes Digital Libraries
- Lakeland Digital Library
- Midwest Collaborative for Library Services
- Suburban Library Cooperative
- White Pine Library Cooperative: Fuel Your Mind (SDL is a member of this consortium)

If a book is not available in the Fuel Your Mind collection, search another digital collection. Click the Partner Libraries tab located in the upper right corner of the Fuel Your Mind page. Select the Content Group you'd like to search. Borrowing and placing holds use the same process. Each Content Group has to be searched separately.

Add the new OverDrive Content Groups to your Libby App

- In the Libby App, select "Menu" from the toolbar at bottom of screen
- Under "Your Libraries" click "Add Library"
- In the text box asking for Library Name, City, or Zip, begin typing Download Destination and the Content Group should appear
- On the next screen click "Sign In With My Card"
- Click on Sanilac District Library & enter your library card number. Click "Sign In"
- Repeat these steps for each Content Group. Once linked they will stay under Your Libraries under the Menu tab
- Each Content Group collection will need to be searched separately
- Preference will be given to home library patrons for high demand items

Libby Update

Readers may now sort & filter loans, reserves, tags and timeline activities. On the Shelf and Timeline, users can review and select their preferred options from the new filter button. Users may now filter their wish list and other tags by availability. Users may pin this filter to see titles that are available from any of their tags. Additional updates include:

- Sort & filter options are tailored for each Shelf screen. Users can sort their Loans screen by "due next" and sort their Holds screen by "expected next," plus more options.
- Users may pin their preferred sort and filter options. Once a filter is pinned, Libby will automatically remember that filter. For example, a user could sort their Loans by "due next" and pin that option to ensure their screen always displays books in order of due date.
