

# Library of Things Donation Suggestion List

Help SDL's Library of Things grow by donating THINGS that are in new, “like new” or in very good condition to be included in the collection.

**If you have ideas for other Things, please contact the library**

**Donations to purchase new items are greatly appreciated!**

## “Like New” Definition

"Like new" means an item is in excellent, near-perfect condition with no visible signs of wear, damage, or significant use, though it may have been opened or removed from its original packaging. It is considered as good as new and is often described as a product that could still be acceptable as a gift, even if it's not sealed or brand-new.

Key characteristics of a "like new" item:

- **No visible wear:** There should be no scratches, stains, tears, or other signs of use or damage.
- **Functionality:** The item should be in perfect working order.
- **Completeness:** All essential accessories and original parts are usually included.
- **Packaging:** The original packaging may be missing or damaged, but the item itself is flawless.

Arts & Crafts
